FNP system

FNP number : 1122

Index FNP : S004

Last publication : 2022/05/31

State : PUBLISHED

Supplier : PPG

Total thickness : 100 µm

public comment EN : The substrate temperature, the relative humidity and the dry film thickness can significantly impact the drying times. Provide sufficient ventilation during application to facilitate water evaporation. At a humidity level higher than 60% and a temperature < +15°C, drying is greatly slowed down.

Utilities type : PARC NUCLEAIRE

Technical sheet : FNP 1122 - ENG - Ind C.pdf
