FNP system

FNP number : 1104

Index FNP : S003

Last publication : 2024/08/28

State : PUBLISHED

Supplier : PPG

Total thickness : 140 µm

public comment EN : Aug. 01st, 2023 : First publication of the system. The bi-component product "CENTREPOX PZ NF" is renamed "CENTREPOX PZ EVO" following solvent reformulation of the base (hardeners are not reformulated but commercial trade name also changed to avoid confusion). The DI/TEGG note ref. D309522042727 [A] participate in qualification maintaining of all the FNP systems concerned. FNP1104 system succeeds to the FNP1041 system, on the same codifications with the products of the "EVO" segment. It should be noted that tests were also supported by EDF on the FNP1104 to argue the non-regression of the reformulated system.

Utilities type : PARC NUCLEAIRE

Technical sheet : FNP 1104 FT ENG Ind E july 2023.pdf
