FNP system

FNP number : 1098

Index FNP : S004

Last publication : 2024/08/28

State : PUBLISHED

Supplier : PPG

Total thickness : 100 µm

public comment EN : Aug. 28th, 2024 : Technical Datasheet update to reflect the new thickness tolerances criteria subsequent to revision 09 of CCTR, but without moving to the new template (exemption granted by EDF) Aug. 01st, 2023 : First publication of the system. The bi-component product "CENTREPOX PZ NF" is renamed "CENTREPOX PZ EVO" following solvent reformulation of the base (hardeners are not reformulated but commercial trade name also changed to avoid confusion). The DI/TEGG note ref. réf. D309522042727 [A] validated the qualification maintaining of all the FNP systems concerned. FNP1098 system succeeds to the FNP1048 system, on the same codifications with the products of the "EVO" segment. It should be noted that tests were also supported by EDF on the FNP1098 to argue the non-regression of the reformulated system.

Utilities type : PARC NUCLEAIRE

Technical sheet : FNP 1098 ENG_Ind C_June 2024.pdf
